Iluminar wins Security Products 2016 New Product of the Year Award

iluminar Inc, the specialist manufacturer and supplier of infrared (IR) and white light illuminators, is proud to announce that their License Plate Recognition camera has won the Security Products 2016 New Product of the Year Award in the Analog Camera category.

The award, from Security Products magazine, the only integrated product and technology magazine reaching the entire US security market, and securitytoday.com, honors the outstanding product development achievements of security equipment manufacturers whose products are considered to be particularly noteworthy in their ability to improve security. A record-high number of entries was received in this eighth successful year of the independently juried contest.

"We're delighted to have won this highly prestigious award," said Mrs. Eddie Reynolds, President and CEO of Iluminar. "The all-in-one iluminar LPRS-32-24 camera is a very popular choice for License Plate Recognition applications. Its ability to capture plates at a distance of 32' (10m) at speeds up to 35 mph and used with any VMS software, make it the ideal choice LPR applications."

For further information about iluminar's range of professional IR and white light illuminators, and LPR Series cameras, customers can call iluminar on +1 (281) 438-3500, email sales@iluminarinc.com, or visit their website at www.iluminarinc.com
