Who is iluminar?

iluminar (which means to “to illuminate” in Spanish) is a specialist manufacturer and supplier of IR and white light illuminators and license plate recognition products. The owners have over 30 years combined industry experience. Our company mission is to supply high quality and reliable lighting and license plate recognition products to the CCTV industry, backed by unsurpassed customer service.

What is IR Illumination?
Infrared illumination is energy which is invisible to the human eye but can be seen by a high quality black/white or true day/night camera (IR cut filter removed). The energy from IR illuminators resides just outside the visible red section of the electromagnetic spectrum, above 700nm and below 1000nm.

IR illumination is an ideal source of illumination for security cameras for the following reasons.

- It is invisible to the human eye but visible to black/white and true day/night cameras, which makes it ideal as a covert/none obtrusive form of illumination.
- Because it is invisible to the human eye it does not create the problem of light pollution.
- It has a longer range than visible light due to the higher wavelength (up to approx. 919’ or 280m)

All of iluminar’s infrared illuminators are designed to provide superior IR lighting for CCTV systems. They are available with a range of angles and distances to cover different ranges and scenes.

Supplied with an IP66 rating, the IRC Series are vandal proof and are designed for indoor & outdoor use. The tempered glass panel and die cast aluminum housing

Iluminar Inc.

* Viewing distance tested using Sony 1/3" CCD camera with 0.01lux. To achieve distance needed, please pay
  attention to your camera and lens specifications prior to purchase. IR illuminators require true day/night camera with
  mechanical IR cut filter. Distances realized may vary due to different camera and lens specifications.

## General

**Electronics**

- High efficiency surface mount high power LED’s with advanced current
  limited integral control circuitry
- **Number of SMT LED’s**: 30
- **Construction**: Robust high quality aluminum extrusion
- **Front window**: Tempered glass panel
- **Finish**: Black powder coated
- **Power Cable**: 1.47" (45cm)
- **Operating Temperature**: -40° to 122°F (-40° to 50°C)
- **Weight**: 7.27lbs (3.3Kg)
- **Mount**: Black powder coated stainless steel wall mount. Adjustable via M6 Allen key (included)
- **Dimensions**: 8.26" x 8.38" x 4.88" (210 x 213 x 124mm)

## Wavelength

- **Standard (A)**: 850nm (semi-covert)
  - Faint red glow visible on the illuminator only (no visible light)

## Certifications

- **Safety**: EN60598:2004, EN60825-1
- **Electrical Safety**: IP66 in accordance with EN60529:1992
- **EMC**: EN61000, FCC part 15.107 15.108 Class B
- **WEEE**: Waste Electrical & Electronic Equipment European directive 2002/96/EC
- **RoHS**: Restriction of Hazardous Substances European directive 2002/95/EC

## Electrical

- **Input Voltage**: 12Vdc or 24VAC
